

## Commercial Finance

Pullman & Comley has extensive experience in all areas of commercial lending including asset-based lending and commercial finance, equipment lease financing and lending to specific areas such as health care, automobile dealers, factoring and real estate development, and preparing the necessary documentation to secure such credit facilities.

We represent a number of major Connecticut banks as lender's counsel in the negotiation, structuring and documentation of financing transactions as well as governmental agencies, primarily in Connecticut. We also regularly represent business entities as borrowers' counsel, utilizing our experience in assisting our clients in obtaining the most favorable credit facilities available, whether they be for acquisitions, expansions or general working capital needs. We represent several major automobile dealers and in conjunction with that are experienced in negotiating and documenting floor plans and related financing for that particular industry.

Our attorneys also have extensive experience in representing our lender clients in loan work-out and restructuring transactions as well as in bankruptcy proceedings. Likewise, this experience extends to our participation with our Bankruptcy practice in the representation of debtors.
