

## Manufacturing

Pullman & Comley brings breadth of experience in the legal areas critical to success in the manufacturing sector, including corporate, labor and employment, environment, investment, litigation, intellectual property and tax issues. We work with a diverse group of manufacturing clients, from pharmaceutical and biotech companies to metal product manufacturers and growing enterprises in a broad range of industries. We assist our manufacturing clients in a wide range of matters, from regulatory compliance, dispute resolution, trade secret protection and enforcement of restrictive covenants to environmental compliance, land acquisition, zoning and leasing, product liability, insurance issues, expansion and energy issues.
