

Telecommunications

Our Telecommunications practice attorneys offer a wide range of legal services to assist clients in responding to the opportunities and requirements of the telecommunications markets throughout the New England region and the country. We have extensive transactional and regulatory experience in both wireless and wireline telecommunications, and help our clients stay ahead of the ongoing changes in regulations governing this industry. Our attorneys deal with every aspect of telecommunications, including leasing; regulatory proceedings; setting of utility rates; siting and land use; interconnection; environmental law; real estate; taxation; business, project and operational finance and litigation.
