

SEMINAR: Best Practices in Cybersecurity

Pullman & Comley hosted the second seminar of our Business Owner's Guide to Survival, Growth and Wealth roundtable series co-sponsored by Touchstone Advisors and Bradley, Foster & Sargent, Inc. on October 14.

"Best Practices in Cybersecurity" featured an interactive discussion designed to answer questions regarding cybersecurity protocols and threats, such as:

- Identifying the biggest cybersecurity and data privacy threats today, and what you can do to mitigate your risk
- Obtaining insights into the top ten items to keep in mind regarding your information technology protocols
- Determining what your legal obligations are in the event of a security breach
- Identifying the types of risks that can be mitigated or transferred
- Considering the role of insurance coverage in loss mitigation
- Determining what you should do to be prepared for future cybersecurity breaches

The discussion was led by **Timothy G. Ronan**, Chair, Cybersecurity and Privacy Practice, Pullman & Comley, LLC, and **Jeffrey I. Ziplow**, Business and Technology Consulting Partner, Blum Shapiro Consulting.

The complete list of dates and topics for the Business Owner's Guide to Survival, Growth and Wealth roundtable series can be found [here](#).
