

Proud to Support Nonprofit Organizations Responding to COVID-19

April 14, 2020
4-CT Corp.

With pro bono assistance from Pullman & Comley attorneys, the Connecticut COVID-19 Charity Connection – also known as 4-CT, was established and has already raised \$10 million for the COVID-19 Response Fund.

Working collaboratively with the State of Connecticut, community foundations, including the Hartford Foundation for Public Giving, United Way of Connecticut, philanthropists, the business community and the general public, 4-CT Corp is focused on bolstering the resources available to support the state’s nonprofits on the frontlines serving individuals, families and communities hit hardest by the COVID-19 pandemic.

4-CT will provide financial support to these organizations to ensure they can meet increased demand in the coming weeks and months, and will seek to expand the ranks of these philanthropic partners supporting the nonprofits. To learn more visit 4-ct.org.
