

## **IN THE NEWS: Pullman & Comley Assists Kleen Energy in “North American Single Asset Power Deal of the Year 2008”**

---

March 16, 2009

*Project Finance*

Pullman & Comley’s work with Kleen Energy Systems, LLC was featured in an article in the March 2009 issue of *Project Finance* magazine. Working with Kleen Energy Systems, Pullman & Comley assisted in the closing of debt and equity transactions through Goldman Sachs Credit Partners and Energy Investors Funds valued at more than \$1.3 billion. This will allow for the continued construction and long-term financing of a 620 megawatt dual fuel-fired electric generation project in Middletown, Connecticut, the most advanced and environmentally sophisticated baseload electric generation unit in the state. The Kleen Energy project was recognized as the “North American Single Asset Power Deal of the Year” for 2008 by *Project Finance* at its annual North American awards dinner on March 5, 2009.
