Clients benefit from the Bankruptcy practice's strong background in business, healthcare, litigation and financing. Our goal is to deliver the highest quality results while recognizing our clients' needs for efficient legal services and competitive pricing. With the assistance of other practices of the firm, the Bankruptcy Practice can more effectively resolve issues that often arise in a bankruptcy proceeding in other areas of the law, such as real estate, securities law, corporate, environmental, labor and employment, and taxation, or where commercial litigation is required. Though we take a proactive approach that emphasizes consensus building with a goal towards a corporate restructure that satisfies the various competing interests, members of the Bankruptcy practice are also skilled and highly experienced in litigating contested matters and adversary proceedings of all types in Bankruptcy Court.
