

## Family Law Trial Strategy Consultation

---

Developing an effective trial strategy at the outset of a divorce matter can make all the difference in achieving a good outcome. The two retired judges on our Family Law team assist attorneys in pretrial preparation that is strategically directed toward achieving optimal results for the client.

Early use of a trial strategy consultant results in a more effective and financially efficient litigation approach. No two dissolution cases are identical and a successful trial strategy approach must recognize the distinguishing aspects that make each client's case unique. Our retired judges provide trial strategy consultation that helps attorneys and their clients develop a result-centric plan specifically crafted to fit their individual needs.
