

## Something for Board Policy Committees to Consider

---

### Education Law Notes

10.14.2014

Every year, new laws result in new policy changes. To help you and your district understand the policy impact of the General Assembly's 2014 legislative enactments, Pullman & Comley has issued the following School Law **alert**. Superintendents, board policy committee members and others should review the alert to make sure that their district's policies are up-to-date.

As always, if you have any questions on how the General Assembly's 2014 enactments may impact your district policies please contact one of our school law attorneys.
