

Professional Staff

The more than 70 professional staff members at Pullman & Comley play an essential role at our firm. Experienced paralegals and legal administrative assistants are integral to the high level of service we offer our clients. In addition, we employ a business team that includes professionals in Accounting, Business Development and Marketing, Human Resources, Information Technology and Conflicts & Records, whose contributions are critical to our success.

We look for employees that enjoy working as part of a team and share our commitment to excellence. Pullman & Comley provides comprehensive training for new hires and ongoing programming for all professionals, and offers a competitive compensation and benefits program. Our collaborative environment offers many opportunities for personal and professional growth.

We believe that a workforce that reflects our society's diversity enriches us with multiple perspectives and experiences. For more on our commitment to diversity, visit our Diversity and Inclusion page.

If you are a professional staff candidate and have any questions, please contact:
