Please join us on June 4, 2020 for a webinar led by school law attorneys Melinda Kaufmann and Michael McKeon on the topic, "Title IX and the New Regulations: Will Your District Be Ready?"

The US Department of Education issued the first revision to the Title IX regulations in 45 years. The regulations go into effect August 14th and make sweeping changes in the way that schools must investigate and address claims of sexual harassment. Will your district be ready?

Join us for a webinar that will dispel many popular myths regarding the regulations and provide you pertinent information about the regulations and how to implement them.

Registration for the webinar is free, but it is required to access the event. You can register for the program **HERE**. There will be time for Q&A at the end of the presentation.
