Pullman & Comley's Labor, Employment Law and Employee Benefits practice attorney Zachary D. Schurin will be leading a seminar, part of the Middlesex Chamber of Commerce/KeyBank Workshop Series, on best practices for employee use of social media in the workplace.

We live and work in the social media age. A post, tweet, share or like made via Facebook, Instagram, SnapChat, Twitter, LinkedIn or any other platform can directly and indirectly impact the workplace. Zach will give attendees a guided tour of the intersection between labor and employment law and employee use of social media.

This seminar will be held at the Middlesex Chamber, with an option to join via Zoom. For additional information and to register, please visit the Middlesex County Chamber of Commerce's website.
